Across all corners of the globe, Turkey's rich history of arts and crafts is alive and well, living and breathing in the hearts of the Turkish diaspora.

As the pathway between East and West, Turkey's arts and crafts have been enriched by a great range of cultural traditions over many centuries.

From generation to generation, the country's extraordinary range of arts and crafts has evolved to becoming a unique reflection and celebration of its people's enduring values and experiences.

Over the last 60 years the Turkish community of Victoria has continued these rich, artistic and cultural practices by producing an incredible range of traditional and contemporary arts. This exhibition, coordinated by the Moreland Turkish Education and Social Affairs Centre, offers a wonderful collection of work including marbling, crochet, carpet weaving, jewellery-making, painting and photography.

Gallery hours: Monday to Saturday 10am - 5pm

Multicultural Arts Victoria is Victoria's peak arts organisation promoting cultural diversity in the arts.
